

CALL FOR PAPERS

The new journal, “*International Journal for Vehicle Systems Modeling and Testing*” has now officially been “launched” by Inderscience Publishers and is considering submissions.

For more information about the *International Journal for Vehicle Systems Modeling and Testing*, visit the journal’s home page at <http://www.inderscience.com/ijvsmt>.

Subject Coverage

- Computer-aided modeling and simulation of vehicle systems
- Structural analysis
- Kinematics and kinetics of vehicle systems, vehicles and their components; emphasis on rigid multi-body dynamics programs
- Coupled field problems, such as introducing flexible bodies in rigid-body dynamics calculations or MBD-control coupling
- Performance of alternative/concept vehicles
- Applied vehicle dynamics
- Applied control techniques
- Vehicle control
- Modeling of active safety systems
- Lean testing (i.e. how to minimize testing, yet maximize its impact)
- Testing techniques
- Test rigs
- Vehicle-road and vehicle-bridge interaction
- Modeling and testing of vehicle crashworthiness

All papers are refereed through a double blind process. A guide for authors, sample copies and other relevant information for submitting papers are available in the Paper Submission section under [Author Guidelines](#). Submission can be made electronically by a MS Word file attached to an e-mail addressed to **Dr. Johan Wideberg** at wideberg@esi.us.es.
