

Valutare le seguenti affermazioni e stabilire se sono vere o false (rispondere mettendo solo una crocetta nel quadrato corrispondente alla risposta; non é necessario scrivere giustificazioni sui fogli da consegnare).

$$\forall n \in \mathbf{N}^+ \text{ risulta } \mathbf{N} \subseteq [0, n] \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\forall n \in \mathbf{N}^+ \text{ risulta } [0, n] \subseteq \mathbf{N} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\forall n \in \mathbf{N}^+ \text{ risulta } \{0, n\} \subseteq \mathbf{N} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N}^+ : \mathbf{N} \subseteq [0, n] \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N}^+ : [0, n] \subseteq \mathbf{N} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N}^+ : \{0, n\} \subseteq \mathbf{N} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N}^+ : \mathbf{N} \subseteq \{0, 2, 3, n\} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N} : \{3, n\} \subseteq \{2, n+1\} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N} : \{2, n+1\} \subseteq \{3, n\} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\forall n \in \mathbf{N}^+ \text{ risulta } \mathbf{Z} \subseteq [-n, 0] \cup [0, n] \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\forall n \in \mathbf{N}^+ \text{ risulta } \mathbf{Z} \subseteq \{-n, 0\} \cup \{0, n\} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\forall n \in \mathbf{N}^+ \text{ risulta } \{-n, 0\} \cup \{0, n\} \subseteq \mathbf{Z} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N} : \mathbf{Z} \subseteq [-n, 0] \cup [0, n] \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N} : \mathbf{Z} \subseteq \{-n, 0\} \cup \{0, n\} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$

$$\exists n \in \mathbf{N} : \{-n, 0\} \cup \{0, n\} \subseteq \mathbf{Z} \quad \begin{array}{l} \square \text{ vero} \\ \square \text{ falso} \end{array}$$
