Publications of Ugo Fiore

Journal papers

optimization strategy for improving RWA in multi-constrained optical
transport infrastructures”. In: Computer Communications 33.15 (2010),

affinity routing in multi-layer optical transport networks”. In: Journal
of High Speed Networks 17.4 (2010), pp. 185–205. issn: 0926-6801.

traffic classification”. In: Computer Networks 53.6 (2009), pp. 761–773.
issn: 1389-1286.

[J9] F. Palmieri and U. Fiore. “Providing true end-to-end security in con-
erged voice over IP infrastructures”. In: Computers & Security 28.6

[J8] F. Palmieri and U. Fiore. “Containing large-scale worm spreading in

based integrated RWA algorithm for multi-constrained optical trans-
port networks”. In: Journal of Network and Systems Management 16.4

worms and viruses into heterogeneous networks: a simple network im-
mune system”. In: International Journal of Wireless and Mobile Com-

online RWA algorithm”. In: Journal of Communications and Networks

traffic engineering in GMPLS networks”. In: WSEAS Transactions on

with Minimum Interference Constrained Routing and Wavelength As-
ignment”. In: WSEAS Transactions on Communications 7.4 (2005),
pp. 382–390. issn: 1109-2742.

In: WSEAS Transactions on Systems 4.2 (2003), pp. 844–849. issn: 1109-
2777.
